Extra turn!

Lose all candy.

Which 2 Santas are the same?

Match the Santas!

Kinney Brothers Publishing ©2020

Hand out this template and a dice to each player. The object of the game is to roll every number and be the first to complete the drawing of the snowman. Players take turns rolling their dice. For each number that is rolled, the corresponding component of the snowman is added to their picture. Once a number is rolled and an image has been used, it can't be used again. The player who completes her drawing first wins!

This activity is especially fun playing the teacher against all the students and in small groups.

Connect the Snowflakes

Players take turns connecting adjacent dots horizontally or vertically, one move at a time. When a player draws a fourth line that forms a square, that player fills the square with his initial and takes another turn.

The game is played until all the dots become boxes. The player with the most boxes completed is the winner.
