Print-ready PDF Files

6 Games

# When Playing

- Games can be played with the whole class or in small groups with players having multiple cards.
- Hand out the cards to all players.
- The cards have designated **Begin** and **End** cards. The player with the **Begin** card reads her card first.
- Whoever has the next card reads that one and so forth. After reading a card aloud, it is turned over.
- The game is finished when the player with the **End** card reads his card.

**reading** **listening** **speaking**
